Qatar, The World Cup

Read about street markets before watching the Third Video of the Zach and Helen series.

Vocabulary: At the Market

Like Taiwan, Qatar and many other countries in the world have **traditional markets**. A traditional market is a great place to go to explore and enjoy local culture, traditions, and even history! Here are some words that you might need if you want to explore the market in English:

Traditional Market: A place you can go to experience local culture, buy souvenirs, and eat local food. Sometimes there are games to play for prizes!

Souvenir: A special thing that you buy to remember your trip, or give as a gift.

Vendor: A person who sells things at a market.

Stall: A cart or other temporary structure for shops, for example food stalls or souvenir stalls

Street food: Food that you buy on the street from a vendor.

Busker: A street performer. Often a musician, but also jugglers, clowns, and other street performers.

Haggle: Talking to a vendor about lowering their prices. A form of bargaining.

Cost: The amount of money you have to spend to buy something.

How much? A question you can ask to find out the price or cost of something. "How much does the souvenir keychain cost?"

Use the vocabulary words about the market to fill in the blanks.

Example: No matter how much I tried to haggle, the vendor wouldn't drop the price.
