

Book1
**Meet
Mei
And
Bobe**

Reading comprehension: Meet Mei and Bobe

Mei

Seventeen years old. She wants to study mechanical engineering as she enjoys problem solving. She's a fun-loving person. And she is confident about sharing her perspectives. Mei also loves to travel. And her interests include computer science and technology. Mei is passionate about big engines.

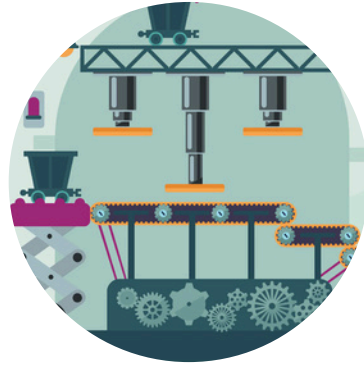

Bobe

Zero years old, yet has access to the combined information produced by our civilization. He enjoys people watching, especially in different languages and cultural contexts. Bobe is afraid of being misunderstood. His favorite pastimes are reading comic books and listening to podcasts from around the world.

Draw a line from the images to the correct person.

Mei

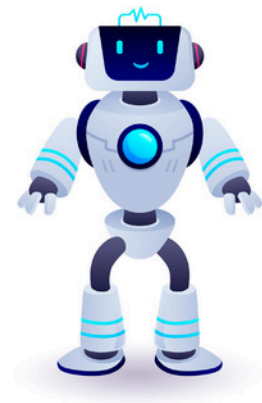

Bobe

Vocabulary: Rules of Robots.

Rule 1: Robots must not hurt humans; Robots must protect humans

Rule 2: Robots must follow human orders, unless they break rule one.

Rule 3: Robots must Keep themselves safe, as long as rules one, two, or both are not broken.

- Bobe will fly with his rocket boots

5. How does Bobe finally travel?

- Staff believe Bobe is a person
- Bobe buys a first-class ticket
- Bobe turns into a suitcase

Write a letter:

Persuade the airline staff Bobe is really a person OR Persuade Mei that Bobe is only a machine / equipment . Write 80-120 words. Read the example, but do not copy it. The example is about students keeping their phones at school. Your letter should be about Bobe being a person or not. Remember to clearly state your opinion and give two reasons for your way of thinking.

Dear Principal Gladwell,

Please let students keep their phones during school so we can learn personal responsibility.

Students should be responsible for their property, and the school's staff has lost and broken several of our phones. We need to learn to take care of our own belongings.

We should also learn to manage our time with our phones so we still do all our work and exercise. If we do not learn to be responsible with our phones during school, how can we become responsible phone wonders when we are adults?

Thank you for your consideration.

Respectfully,
Cindy McFarlan
